

# CST Mod Kits

Sold individually or as a kit

**Civil Support Team, CERFP and HRF Accessories**

**For Polaris Ranger 800, Crew and 6x6 MY10 or Later– Diesel or Gas**

## SCBA Seatback for Ranger Front Seat

- Accommodates driver and passenger in Level “A” suit with SCBA bottles or BG4 backpack re-breather
- Front steering tilts to allow ease of ingress/egress
- Steel frame roll bar system (14 gauge rectangular tubing) mounts to Polaris
- Standard seatback pad attaches to aluminum frame that slides easily on and off the steel seatback frame.

Seatback in normal position

Seat rest Slides Off

Seat rest mounts over head

Reduces Fatigue;  
Head, shoulder Support Retained

## Front Rack

- Interfaces without change to tires or springs
- Steel Rack (1"x1" square tubing) with litter mount system attaches to hood hinge and front bumper
- The front rack can carry 250lbs, with a vehicle speed limit of 20mph
- In an emergency, when a load of 300lbs is needed (litter with person), speed will be limited to 5mph

## Steel Bed with Fold Down Sides

- Replaces the standard molded bed
- Powder-coated steel bed has 10" side rail and tailgate that fold down
- 4 D-ring style tie down and litter mount system
- Bed is 54"x38" with sides up and 77"x55" folded down.
